

INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT
NONRULE POLICY DOCUMENT

Title: Submission of Annual Non-Methane Organic Compound Reports for Municipal Solid Waste Landfills

Identification Number: Air-017-NPD

Date Originally Adopted: April 24, 1998

Date Revised:

Other Policies Repealed or Amended:

Brief Description of Subject Matter: Provides a schedule for the submission for annual NMOC reports under 40 CFR 60, Subpart Cc and WWW

Citations Affected: 326 IAC 8-8, 326 IAC 8-8.1

This nonrule policy document is intended solely as guidance and does not have the effect of law or represent formal Indiana Department of Environmental Management (IDEM) decisions or final actions. This nonrule policy document shall be used in conjunction with applicable laws. It does not replace applicable laws, and if it conflicts with these laws, the laws shall control. A revision to this nonrule policy document may be put into effect by IDEM once the revised nonrule policy document is made available for public inspection and copying. IDEM will submit revisions to the Indiana Register for publication.

The purpose of this nonrule policy document is to provide a schedule of dates for the submission of annual non-methane organic compound emissions reports to be filed in the Office of Air Management (OAM).

Background

40 CFR 60, Subparts Cc and WWW require municipal solid waste (MSW) landfills with a design capacity greater than 2.5 million megagrams (Mg) or greater than 2.5 million cubic meters to submit an initial estimation of non-methane organic compounds emissions. If the initial estimations of emissions are less than 50 Mg per year, then the landfill is required to submit an annual report of non-methane organic compounds emissions. These submittals are to be done until the emissions estimations exceed 50 Mg per year, at which point the landfill must submit a design plan for a gas collection and control system.

Policy

40 CFR 60, Subparts Cc and WWW do not specify a date by which these annual non-methane organic compounds emissions reports are to be submitted. It is the intention of this nonrule policy to outline the submittal dates for the annual non-methane organic compounds emissions reports.

For MSW landfills located in Clark, Floyd, Lake and Porter counties, subject to the requirements of 326 IAC 8-8, the annual non-methane organic compounds emissions report will be due no later than April 15 of the following calendar year.

For MSW landfills not located in Clark, Floyd, Lake and Porter counties and subject to the requirements of 40 CFR 60, Subpart WWW, the annual non-methane organic compounds emissions report will be due on July 1 of the following calendar year.

For MSW landfills not located in Clark, Floyd, Lake and Porter counties and subject to the requirements of 326 IAC 8-8.1 and 40 CFR 60, Subpart Cc, the annual non-methane organic compounds emissions report will be due on July 1 of the following calendar year.

If there are any questions concerning the information provided in this nonrule policy document, please contact Ann McIver at (317)232-8411.
